Election Day is over!!

The election turned out the way we had hoped. I want to thank you all for your supports and encouragements over the course of the campaign and in the election hall.

In the weeks ahead, our elected President – Lual Bul Manyok, Vice President – Lual Deng Awan and General Secretary – Garang Ajak Barach, look forward to sitting down to talk about where we can work together to move our TCA-USA forward.

Being an effective leader involves listening to members, interpreting their concerns into workable proposals, and building harmony to implement them. Lual Bul Manyok will not do this job without the involvement and openness of the people he represents. He looks forward to share with you some ideas, your concerns, and your aspirations, and I sincerely appreciate your willingness to discuss what really matters to you.

Our community is facing many challenges now and in the coming months, but we can overcome them if we all rise above politics to do what is best for our people. I look forward to continuing to work for you and I will make our community will be a place where people of all kinds can count on a bright future.

Congratulations!

Despite all our differences, most of us share certain hopes for our community's future:

1. We want our kids to grow up in a community where they have access to the best educations;
2. We want to pass on a community that's safe and respected and admired around the world.
3. We believe in a generous community, in a compassionate community, in a tolerant community, open to the dreams of our people here in aboard and at home.
4. In the coming two months, his team will be looking forward to reaching out and working with leaders to meet the challenges we can only solve together: this is the future we hope for; this is the vision we share, and this is the direction we need to go forward.
